

The PROCTER High Visibility Corner Protection Hoop

The PROCTER range of Hi-vis products are ideal for providing High Visibility protection in both internal and external warehousing environments. All products in the range are galvanised mild steel, ensuring their longevity and are designed to take the knocks and bumps that occur in all warehouses.

The Corner Protection Hoop is 700mm x 700mm and is available in either 500mm or 1,000mm tall versions. The product is designed to be located in any corner where protection against accidental damage is required. The product is made from 76mm outside diameter mild steel tube and is coated yellow with reflective black bands.
