

The PROCTER High Visibility Perimeter Barrier

The PROCTER range of Hi-vis products are ideal for providing High Visibility protection in both internal and external warehousing environments. All products in the range are galvanised mild steel, ensuring their longevity and are designed to take the knocks and bumps that occur in all warehouses.

The Perimeter Barrier is made in 48mm outside diameter tube and is 1,000mm tall, coated yellow with black reflective bands and is available in 1,000mm, 1,500mm & 2,000mm wide versions. It is available with or without a horizontal rail. The product is designed to be located in any location where a physical barrier is required to protect machinery, racking or similar.
