

## Pro-mesh Fencing

PCD18

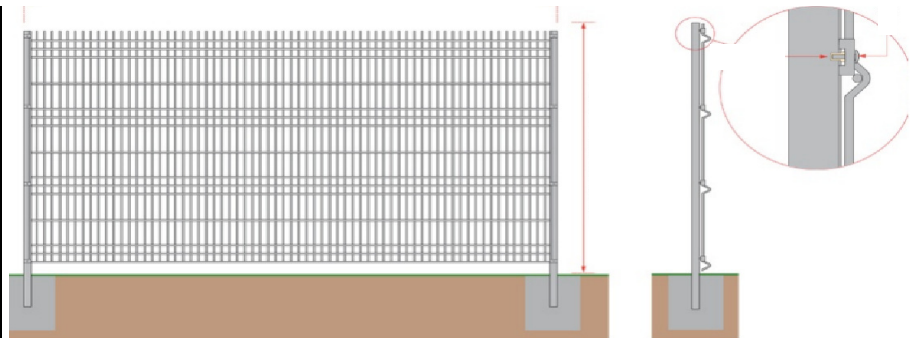

Our industry standard Pro-mesh panel fencing options are typically used for medium security applications, with the nature of the mesh panels making it difficult to climb and cut through. Pro-mesh also has an attractive appearance and the open yet very strong mesh allows good visibility through it.

Standard heights and ranging from 1.2m to 3.0m with finish galvanised and polyester coated in a range of standard RAL colours and non-standard colours if required.

## Applications

<b>Car Parks</b>
<b>Sports &amp; Recreation</b>
<b>Perimeter - medium security</b>
<b>Schools</b>
<b>Retail</b>
<b>Industrial Units</b>
