

Mitre Top Bollard

Procter's Mitre Top Bollard has a modern and striking design. Aesthetically pleasing, this simple, elegant bollard is perfect for preventing unauthorised vehicle access or parking in communal areas.

Manufactured from galvanised mild steel, it is designed to look good on even the busiest sites for many years. Supplied ragged as standard, flanged and colour coated versions are available upon request (please state BS/RAL number at time of order).

Product details

1000mm above ground
400mm below ground (ragged only)
3mm wall thickness; 76mm diameter - 127mm diameter
5mm wall thickness; 139mm diameter - 193mm diameter

Installation & use

Ragged bollards require a hole of at least 400mm deep for casting into concrete.
Flanged bollards require bolting down to a suitable concrete surface (no less than 300mm³) by means of three M12 bolts.
Procter Contracts recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them.
This product is guaranteed for 12 months (*if installed and used correctly*).

Product details

1000mm above ground
400mm below ground (ragged only)
2mm wall thickness

Installation & use

Ragged bollards require a hole of at least 400mm deep for casting into concrete.
Flanged bollards require bolting down to a suitable concrete surface (no less than 300mm cube) by means of three M12 bolts.
To prevent against vehicle access, Procter recommends the distance between bollards does not exceed 1200mm.
This product is guaranteed for 12 months (if installed and used correctly).
