

Pro-acoustic

PCD29

Pro-acoustic Environmental Noise Barrier Systems are manufactured from high strength glass reinforced polymers, totally negating the need for timber with its inherent issues within their construction.

Pro-acoustic systems consist of highly durable panels that will not warp or shrink, are rot proof and resistant to aggressive environments and solutions such as salt spray and oils, all without the need for additional treatment.

SYSTEM BENEFITS:

- Longevity - Durable, years of maintenance free life
- Performance - Consistent high acoustic performance
- Stability - No warp or shrink
- Quality - UK manufactured, delivered, pre-assembled and CE marked to EN 14388.
- Productivity - Quick installation / quiet installation
- Environmental - Based on recycled polymers & fiberglass
- Graffiti resistant - easy maintenance in removing graffiti
- Standard UV stable colours of Green, Grey and Brown.

SYSTEM OPTIONS:

- Reflective
- Absorptive
- Maximum span 3000 mm
- Design flexibility
- Bespoke colour scheme based on volumes

Applications

Airports
Industrial Units
Retail
Rings Roads, Highways and Motorways
Road, Rail & Tube
Utilities

Product Data

Reflective

DLR rating 30 dB

Category: B3

Absorptive

DLA rating 27 dB

Category: B3
